March 2025

For the member-owners of Federated Rural Electric

Volume 29, Issue 3

Members have moved away...so help us find them for their capital credits pay day

Have these former cooperative members gone astray? No, they likely have just moved away. Help them find their way back to us. Your electric cooperative is trying to reunite former members with unclaimed capital credits. Their "pay day" is issued once we have a current mailing address.

These former cooperative members have moved or died; we no longer have their current address or estate address. Yet, they are still owed capital credits or their share of a profitable year.

Help Federated Rural Electric and Brown County REA (BCREA) locate these far away members and provide us new addresses. Their capital credits check was returned last year — address unknown. If you know the current location for any of these former members, please have them call or e-mail the appropriate cooperative with their new address and/or phone number. We'll then mail their capital credits check. In addition, BCREA's list also includes older, uncashed accounts payable checks. For older Federated unclaimed capital credits listing, go to their website.

If we do not receive new addresses on these missing members, their unclaimed capital credits checks are donated to a tax-exempt organization. Brown County Rural Electrical Association and Federated Rural Electric donate unclaimed capital credits to their Operation Round Up programs. Brown County REA's Round Up Trust donates to charitable organizations, individuals and families in crisis and scholarships in the co-op's service area. Federated's Round Up Trust Board awards nine high school scholarships and awards the rest to other Operation Round Up recipients. 

Former Federated

members: Call Angie direct 507-849-7847 or 1-800-321-3520 (extension 2233) or e-mail ziemer@federatedrea.coop.

Matches are no match for electric lighter

How often have you tried to light a candle or campfire and the matches are missing or the gas lighter stick is empty? That's so frustrating!

See the light! Switch to an electric rechargeable lighter. It uses plasma arc technology that is windproof and flameless. That's perfect for campfires, lighting charcoal for grilling or wet conditions. It features a rechargeable lithium battery. Power it up using the USB charger cord to your computer, vehicle charger or power bank. The LED lights indicate when the electric fire stick is fully charged, which works for about 500 lightings. Safety features include a six-second power off and an external safety lock switch to keep children safe from accidental lighting.

Look for a model that features the flexible neck design. You can bend the flexible neck to reach inside a candle; avoid burning your fingers, which can occur with matches.

Look at your local hardware store, Walmart or Amazon. One may cost around \$9 or buy two for approximately \$12. 

See the light! Flip the switch and start using a rechargeable electric plasma lighter for candles, camping and grilling — how thrilling!

Safety

Avoid being in a jam! Look out for these utility scams!

Scammers will try anything to deceive utility customers. We want to keep you safe. Learn about these utility scams so you can avoid being in a financial jam!

Payment due immediately

Never make a utility bill payment to anyone calling on the phone, coming to your door, texting you or e-mailing you for immediate utility payment, especially if your account is current or on Auto Pay. Hang up if caller asks you to go purchase a gift or debit card to settle your account balance. Always call your utility company at the number provided on your bill or the utility's website if you have a question about payment or billing information; do not call the scammer back at the same number used to call you.

Your electric cooperative will send a past due or disconnect notice before ever disconnecting for nonpayment. At that time your electric cooperative may call to work with you on payment arrangements or credit card payments. Know your utility payment options: online, by phone, automatic transfer from your bank account, debit/credit card, mail, drop box or in person. The only time a cooperative employee may come to your door for payment is for disconnection due to nonpayment. The employee will drive a marked cooperative vehicle. This step occurs only after trying to

work with the member to receive payment. This is why it is important to provide the co-op with any updates to your phone number or e-mail address.

Overpayment call

With a new scam twist some scammers will call claiming you, the customer, overpaid your electric bill. If you receive a call, text or e-mail from someone claiming you overpaid a utility bill and need to provide your banking or credit card information to receive a credit, it's very likely a scam. In most cases your electric cooperative will apply a credit to your account to cover future charges or refund an overpayment with a mailed check to your address on file.

Power restoration rip off

Don't fall for a power restoration rip off. Scammers may contact you and offer to restore power quickly or in a preferential order if you make an immediate payment. These scams occur after major storms or disasters with widespread outages. We will never request or

require payment to restore power after a storm.

If post-storm repairs to customer-owned equipment are necessary, we will advise you to work with a licensed contractor. If any charges are applicable, you will be billed through your existing electric account and address on file with the cooperative. 

— Courtesy of Utilities United Against Scams

Federated Focus

Iowa complaint process posted

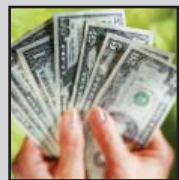

If you have a concern or complaint regarding Federated Rural Electric, it should be addressed to: Scott Reimer, general manager, Federated Rural Electric, PO Box 69, Jackson MN 56143-0069 or call 507-847-3520.

If Federated does not resolve your complaint, you may request assistance from: Utilities Board, Department of Commerce, 350 Maple St., Des Moines IA 50319-0069 or call 515-281-5979.

If your complaint is related to service, rather than rates, and Federated does not resolve your complaint, you may request assistance from the Utilities Division.

This institution is an equal opportunity provider and employer.

2025 residential rebates offered

Go to Federated's website for the 2025 rebate forms (federatedrea.coop) or call the office to

request that one be mailed.

- \$25 Energy Star dehumidifier or Smart Wi-Fi thermostat.
- \$75 for Energy Star refrigerator or freezer with proof of recycling the old unit.
- \$500/ton for a ground source heat pump or \$600 for a ductless air source heat pump.
- \$1,000 for a SEER2 14.3-16.1 air source heat pump.
- \$1,500 for a SEER2 16.2 or higher air source heat pump.

A copy of the sales receipt must be submitted with all rebates. Look for these rebates as a bill credit.

Find the business/farm energy-efficiency rebate forms on our website for lighting, motors and more. ☺

Scott Reimer

Manager's Message

After February's cold snap, we welcome spring's arrival

We spring ahead to Daylight Savings Time March 9 at midnight. Plus, the spring equinox marks the first day of spring with equal daylight and night hours between March 20-21. We look forward to spring as we come out of the February deep freeze. Was it considered a polar vortex? Some say yes, while some say maybe. Load control was called upon frequently to soften the peaks. Thank you all who are load control participants, as well as those who voluntarily reduced usage. Likely several peak days were seen. Our primary wholesale power supplier, Basin Electric, saw an all-time system peak.

Welcome Troy Post as our new District 2 director!

We welcome a new director to the board room. Troy Post attended his first meeting in February representing District 2. See story on Page 5. Welcome Troy!

Ethanol plant closing impacts our electricity sales

Federated received the unfortunate news that Green Plains Ethanol in Fairmont closed due to various reasons. We hope that they will come back online this fall after harvest. Certainly, no guarantees exist. The loss of sales was felt and the forecast needed to be updated to reflect the loss, as well as the reduced purchases. Our financial team will be monitoring this monthly. Already we are identifying items that may be cut to offset the reduced margins. We will not let this negatively affect our reliability or members' service; we will get through this.

April 1 rate adjustment appears on May's electric bills.

An unrelated change that will take place starting in April is the 2025 rate adjustment. The February *Connections* newsletter story, along with the March electric bill insert, provide the details. This all came about prior to the Green Plains' closure and no adjustments were made to rates due to that.

Election results impact on energy policies?

The 2024 elections were pivotal for policies affecting electric co-ops. President Donald Trump's victory and Republicans' majorities in Congress could bring major changes to environmental rules, permitting requirements, funding programs and tax incentives that touch on co-ops' daily operations. This is a very fluid situation and will be a moving target. I will attend the National Rural Electric Cooperative Association's Legislative Conference in Washington, D.C. in early March to hear the latest. We hope that policies hampering progress are eliminated, allowing the industry to do what needs to be done to keep the lights on and affordable.

Building remodel update as details are finalized

We have selected a general contractor and a series of meetings in March will result in a timeline. I am hopeful the project will get underway in June of 2025 and be completed by the end of the year or early 2026. What we understand is the most efficient way to do this is to vacate the building so contractors can have access to every part of the affected area. Thus, our office will be closing to foot traffic and relocating temporarily. We are working on a location and will report to you as soon as we get that nailed down. We will set up a way for members to access employees as needed, probably through scheduling appointments.

The payment drop box is something that members like to use; however, in the event that it becomes inaccessible, I will put in a plug for some of the other payment options. Here's a breakdown of use by members: ACH (Auto Pay or automatic bank transfer) tops the list at 45 percent; credit cards at 25 percent; paper checks at 23 percent; with e-checks and cash around 7 percent. The preferred method is ACH, as no fees apply. Paper checks or cash have no fees either, but requires manual entry by staff. Credit card and e-check all have fees associated with them, which end up costing Federated a percentage of the charge. Hopefully, you are willing to make the switch to the ACH program to avoid any hassles during construction. If so, our staff is ready to assist you. See the story at the bottom of Page 1. ☺

Troy Post appointed to fill District Two Director term

Federated welcomes Troy Post, Brewster, as the new District Two director. The Nominating Committee met to fill this position due to a retirement, providing names to the Board of Directors; they appointed Troy as the director until the August Annual Meeting elections. Then members will vote to fill the one-year term remaining for this district.

Troy is the second generation to serve as a director in this district. His dad, David Post, served as the District Two director from 1990 to 2010.

"First, I would like to thank Darvin Voss for his many years of service to Federated's Board," Troy stated. "I was excited to apply and be chosen. My dad was also pretty excited. Thanks to the support from my wife, Gwen, and my brother, Eric, in our farming operation, here I am. While a lot has changed

since my Dad was on the Federated Board, our family has always been thankful for the high level of service and commitment that the employees of Federated have provided. We also appreciate the benefits of member ownership in the cooperative."

Post is the co-owner of Post Swine

Farms, finishing pigs, plus raising corn and soybeans. Post previously worked for the Veterinary Medical Center in Worthington as a clinic tech/manager in the early 1990s. He then managed the feed department and was the interim general manager for the Okabena Farmer's Co-op in the mid to late 1990s. He is involved in the St. Paul Lutheran Church in Rost Township, belongs to the Sons of the American Legion, Pheasants Forever and the Minnesota Corn/Soybean Growers. Post graduated from Heron Lake-Okabena High

School and earned an AAS degree in small business and accounting from the University of Minnesota in Crookston.

Troy and Gwen have two married children (Erika and Jacob) who both reside in Brandon, South Dakota.

Congratulations Troy and welcome to Federated's Board of Directors! 🎉

Join us on a mini-vacation for the power plant & coal mine tour; Sign up for August 20-22 trip, as limited number of seats exist

Join us on a three-day trek across the Dakota Plains to tour the Antelope Valley power plant and the Coteau lignite mine August 20-22. In addition, tour the Garrison Dam.

Depart from Jackson August 20 on the air-conditioned charter bus. Plenty of movies, games and frequent rest stops break up the day.

The big tour day is August 21. Depart Bismarck, North Dakota, for the Garrison Dam, power plant and mine. Take the elevator to the top of the power plant to see the view; peek into the coal-burning furnace and enjoy the bus ride into the lignite open pit mine, weather permitting. In the evening enjoy a relaxing supper and riverboat ride on the Missouri River.

On August 22 the group heads back home. Enjoy periodic rest stops and return to Jackson in the early evening.

As a cooperative member-owner, learn about these sources of your electricity. The cost is only \$157 per Federated member or \$314 per Federated couple. The fee includes the cost for the hotel, bus, all meals, riverboat and snack breaks.

Federated shares the tour bus with two Iowa co-ops so just 15 seats are available. Call with your credit card to reserve your seats or send in your contact info with your check payment and coupon. Call Federated (507-847-3520 or 800-321-3520, press extension 2224 for Andrea). If you have gone before, please do not sign up again so other members may learn more about their power supply. 🙏

August 20-22, 2025

Basin Tour Registration

1 Federated member for \$157

2 Federated members for \$314

Name(s) _____

Phone # _____ Amount Paid \$ _____

Oh happy day! Your co-op is sending "thanks" your way! Thanks for taking time to help former members receive their capital credits "back pay."

Whip up your favorite meringue recipes to share with all of us

Springtime calls for a light and fluffy dessert using meringue! Share your favorite meringue recipes with us, whether it's for a cookies, pie or torte. Send your favorite meringue recipes to Editor, Federated Rural Electric, PO Box 69, Jackson MN 56143-0069 or e-mail to christoffer@federatedrea.coop by April 25. Add your name and phone number. Thanks for sharing with us! ☺

Egg Yolk Chocolate Chip Cookie Bars

by Jessica Nachreiner, Comfrey

If you made an angel food cake and find yourself with an abundance of egg yolks, this is a great recipe to use them up!

- | | |
|--------------------------------|-------------------------------|
| 1 c. softened butter | ¾ tsp. baking soda |
| 1 c. light brown sugar, packed | ¾ tsp. baking powder |
| ½ c. white granulated sugar | 1 tsp. salt |
| 5 large egg yolks | 2½ c. all-purpose flour |
| 2 tsp. vanilla extract | 2 c. chocolate chips, divided |

Preheat your oven to 350°F and prepare a 9x13" baking pan with non-stick spray. In a large bowl beat together the butter and sugars until combined and fluffy. Beat in the egg yolks and vanilla extract. Then beat in the baking soda, baking powder and salt. Add the flour and use a large spoon or spatula to mix the dough together. Stir in 1¾ c. of the chocolate chips (the rest will go on top). Spoon the dough into your prepared baking pan. Use the spoon to evenly spread and gently flatten the dough. Sprinkle the remaining ¼ c. of chocolate chips on top and gently press them into the dough. Bake the bars at 350°F for 25-30 minutes or until the edges are lightly browned and the center no longer looks wet. Allow the bars to cool completely in the pan placed on a cooling rack. ☺

Natalie's Monster Bars

by Elizabeth Shimon, Granada

- ½ c. butter
- 1 c. sugar
- 1 c. brown sugar
- 3 eggs
- 1½ c. peanut butter
- 1 tsp. vanilla
- 2 tsp. baking soda
- 4½ c. old-fashioned oats
- 1 c. M&Ms
- ¾ c. chocolate chips

Mix all together and press into a greased 9x13" pan. Bake at 350° for 20 minutes. Don't overbake! ☺

Get your ducks in a row...

Turn to your electric co-op for your next water heater & hot, bubbly bath! ☺

Take advantage of our Energy Star refrigerator or freezer rebates with the recycling of the old unit. Find the form on our website or call us! ☺

Always call first:

1-800-252-1166

Call Gopher State One Call before doing any digging more than 12" deep — 48 hours before digging for foundations, trees and tiling.

Register at www.gopherstateonecall.org or call 811. Call a licensed electrician to locate the underground lines on your side of the meter. ☺

The Broadband team attended the 2025 Jackson Farm & Home Show February 22 at the Jackson County Central High School. The team loves the opportunity to connect with our customers face-to-face and answer questions and talk about our fiber-optic buildout projects. One of our technicians brought along our fiber optic home demo and answered a lot of technical questions people had about how fiber connects to their home and what changes they could expect when switching from a fixed-wireless service.

The most common question answered was "When is fiber optic coming to me?" While we aren't able to provide specific dates and plans yet, Federated is committed to connecting all of our members to fiber optic internet. We know how important it is for rural communities, like ours, to have those connections, especially today where more and more of our lives are intertwined with technology. We will keep you all updated here with buildout phases and timelines until fiber optic internet is available to each of our members.

If you missed us at the Jackson Farm & Home Show our team will also attend the Fairmont Farm & Home Show April 11-13 at the Martin County Fairgrounds. This show will be a great opportunity for members living in the Martin County Border-to-Border grant area to come with their questions and see the equipment used to serve their homes during construction. Property owners in the grant area should have received either an e-mail or a letter in the mail with more information about the buildout and a Construction Consent form to fill out and return. If you have not received anything from us regarding the buildout, please contact our office; we will send one your way! ☎

The Board of Directors generally meets the last business day of the month at 8 a.m. at the Jackson office. Regular board meetings are open to the membership. Members interested in discussing business items should contact the general manager or president three days before the meeting.

Broadband now offers phone service for their customers

Federated Broadband is excited to announce we are ready to connect you to phone service through us. Our VoIP (Voice over Internet Protocol) systems are up and running and we have a few customers and business already connected!

If you currently have a landline phone you would like to switch over, we can verify that the number is portable and schedule a set up time. Otherwise, if you are looking to add a new home phone, we can provide you with a new number and phone system. Residential VoIP services start at \$25/month and business services start at \$30/month.

Contact our office today to learn more about how Federated Broadband can be your one stop shop for internet, TV and phone! ☎
